POST OFFICE TROUBLES IN FELICIANA.

An Early Announcement of the Foreign Appointments Promised.

INVESTIGATION OF THE INDIAN BUREAU

FROM OUR REGULAR CORRESPONDENT.

WASHINGTON, June 7, 1877. THE POST OFFICE TROUBLES IN THE PARISH OF FELICIANA, LA. -GENERAL GEORGE A. SHERI-DAN SENT DOWN TO INVESTIGATE.

If the signs of the hour may be trusted the people of Louisiana and Governor Nicholls are likely to have their pledges of good faith severely tested and the sincerity of their acceptance of the President's policy put to the proof. The parish of Feliciana is distinguished above all others as the home of the bull-dozer. Feliciana is famous for him, as all will remember who read there in all his perfection and glory. It so happens that within this historical county two post office vacancies have occurred coincident with the appointment of General George A. Sheridan, of New Urleans, as a special agent of the Post Office Department, and to him the President has issued a commission instructing him to go to Feliciana and see that the two colored federal licers are duly installed at their posts, or know the reason why they ere not. General Sheridan leaves Washington by to-night's train. There is no doubt about his courage, but if he can only get the two postmasters to screw up their courage to the sticking point and enter upon their duties there will be music in Feliciana if the bull-dozer shall persist in his shotgun policy and go the extreme of putting it into practical operation. It will be seen that General Sheridan's mission will

bring Governor Nicholis and his people face to face with their duty under the policy inaugurated by the President and give them to understand that his velvet glove may cover a mailed hand. THE FOREIGN MISSIONS AND CONSULATES-AN

se almost wholly occupied with the subject of the for-sign missions and consulships, and that the appointments, so far as they shall have been made, will be given to the press to-morrow night. The State Department has been practically closed for a couple of days, owing to the occupation of Mr. Evarts and his assistants in pre paring the lists. The principal appointments to foreign missions have been already guessed at with sufficient accuracy to deprive the coming announcements of much of their novelty.

THE KEMPER MASSACRE-INVESTIGATION OF THE CASE OF M'CLELLAND.

The District Astorney for the Southern District of Mississippi, Mr. Lucas Lea, has been instructed by the Department of Justice to investigate the facts attending the death of McClelland in the Kemper county maseacre, in compliance with the request made by the British authorities, who claim that McCielland was a British subject.

fiscal year to date exceeds the total receipts for the same period during the last fiscal year. The returns siready toot up in excess of \$111,000,000, and the impression at the department is that the full receipts the year will fall little, if any, below the estimate of \$120,000,000.

The Commissioner of Internal Revenue is expecting early reports containing details of a recent raid upon Illicit distillers in Alabama, telegraphic advices o which have already been received. The tenor of sevating in Georgia, North Carolina and in other parts of the South is favorable to the complete suppression of ulicit distillation in the region where the government agents have been vigorously at work. Barr, who in April last appeared in the vicinity of Abingdon, Va., representing himself as s federal officer empowered to privately employ ret agents to detect illicit distillers and for the detection of frauds on the postal service. He sent out circulars inviting applications for the position, and charged \$20 for commissions, which he issued to any one who was confiding enough to pay the money. His operations were reported to the department, which at once sent a special agent to look after him, with the result above stated.

ITS COLLECTION. RESIGNATION OF THIRD ASSISTANT POSTMASTER GENERAL BARBER AND APPOINTMENT OF HIS

It is ascertained to-day that previous to the departure last night of Third Assistant Postmacter General Barber for Michigan be placed his resignation in the

hands of the Postmaster General.

The President to-day appointed A. D. Hazen, of Penusylvania, to be Third Assistant Postmaster General, vice E. W. Barber, of Michigan, resigned, to take effect June 30, the close of the fiscal year. General Barber's resignation was wholly voluntary, being caused only by a desire to attend to his per-sonal interests in Michigan. He has held the position of Third Assistant Postmaster General under five successive Postmaster Generals. Mr. Hazen has been in the Post Office Department since 1864 and chief of the stamp department for the past three years. His new appointment is made by the President as a "civil service promotion," on the recommendation of General Barber, First Assistant

Tyner and Postmaster General Key.

It is understood that the position vacated by Mr. Hazen will be tendered to J. M. Davis, late of the same tivision, but now chief clerk of the Government Printing Office.

AN INVESTIGATION ORDERED INTO THE WORK-INGS OF THE INDIAN BUREAU.

Secretary Schurz to-day issued an order creating a board to consist of Dr. Richard Joseph, Disbursing Clerk of the Interior Department; J. D. Terrell, Chief of Division in the Second Comptroller's office of the Treasury Department, and Amos Hadley, of the Interior Department, to examine into the methods now in force in the finance and accounting divisions of the Indian Bureau, especially as to the analysis of money and property accounts of Indian agents, and whether the accounts of agents are rendered in accordance with made without proper authority, and whether the present system is such as to show at all times the condition of money and property affairs at each agency. The last quarterly reports of the agents are to be carefully scrutinized for the purposes above stated, and particular examination will be made as to the number and the compensation of employes at each agency, and whether they are given or are allowed to purchase subsistence or clothing in violation of law. The Board are also instructed to make an examina tion as to the character and total money value of "special purchases" for any agency during the present fiscal year, and whether such purchases have been properly accounted for. The Board are not to be limited by these specific instructions, but are to make such further investigation as may be deemed proper for the best interests of the service, and are authorized to call apon any of the officers or employes of the bureau for such information and assistance as may b
